

QUALIFIED SWIMMING TEACHERS SOUGHT TO TRAIN LOCAL SWIMMING INSTRUCTORS in Mozambique

Working directly with our small team of swimming instructors in Tofo, Mozambique, you will train proficient, older swimmers to become swimming teachers for our [Nemos Pequenos](#) ('Little Nemos') swimming programme. This programme, set up in 2012, teaches swimming to children aged 6-12 years. Despite the fact that most of the population of Mozambique live on the coast and many depend on the sea for their livelihoods, a high proportion of Mozambicans cannot swim and so this programme plays an important role in the community.

We are seeking two qualified instructors to train local swimming teachers and expand our team. You'll be joining a close-knit, fun and enthusiastic team and you'll also meet and have the opportunity to teach the children from the local communities who take part in our swimming programme. Nemos Pequenos is part of Marine Megafauna Foundation Mozambique, a marine research charity, and so you'll also benefit from being part of an international team of people working for the Foundation in Mozambique.

Benefits

- Work with an incredible, inspiring team of people!
- Make a genuine difference in people's lives
- Develop personal and professional skills in a beautiful part of the world
